Office Action Summary

Application No.

09/866,410

Applicant(s)

MATSA ET AL.

Examiner

LaShonda T. Jacobs

Art Unit

2157

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 24 January 2005.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-11, 16-26, 31, 33-43 and 48-51 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-11, 16-26, 31, 33-43 and 48-51 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Response to Amendment

This Office Action is in response to Applicants' Amendment/Request for Reconsideration filed on January 24, 2005. Claims 12-15, 27-30, 32 and 44-47 have been cancelled. Claim 23 has been amended. Claims 1-11, 16-26, 31 and 33-43 are presented for further examination. Applicants' newly added claims 48-51 are also presented for examination.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims **1-11, 16-26, 31, 33-43** and **48-51** are rejected under 35 U.S.C. 103(a) as being unpatentable over Shavit et al (hereinafter, "Shavit", U.S. Pat. No. 2002/0160757 in view Somashekar et al (hereinafter, "Somashekar", U.S. Pub. No. 2002/0116477).

As per claims **1, 16, 31** and **33**, Shavit discloses a method, system and program storage device of routing instant messages, said method comprising:

- a delivery policy to be used to route an instant message to an intended recipient of the instant message, wherein the delivery policy is based upon a configuration of the delivery manager (paragraphs 0024-0030 and 0033-0034);

Art Unit: 2157

- user configuration of the intended recipient, and one or more available delivery mechanisms (paragraphs 0033-0034); and
- routing said instant message to the intended recipient using said delivery policy paragraphs 0036-0038).

However, Shavit does not explicitly disclose:

- defining, at runtime a pluggable delivery manager.

Somashekar discloses a Bundle Configuration Utility (BCU) for configuring network deliverable pluggable components comprising:

- defining, at runtime a pluggable delivery manager (pluggable component) (paragraphs 0010-0011 and 0015-0016).

Given the teaching of Somashekar, it would have been obvious to one of ordinary skill in the art to modify Shavit by including a pluggable component (delivery manager) within system in order to configure the pluggable component (delivery manager) before deployment thereby allowing the pluggable component (delivery manager) to perform the specified instructions.

As per claims 2, 17 and 34, Shavit discloses wherein said defining of the delivery policy comprises:

- defining a routing policy based on said user configuration and said one or more available delivery mechanisms, wherein said routing policy includes one or more possible delivery mechanisms (paragraphs 0033-0034, 0053-0054); and
- selecting from the routing policy at least one delivery mechanism to be included in the delivery policy, said selecting being based upon the configuration the delivery manager (paragraphs 0033-0034 and 0038).

However, Shavit does not explicitly disclose:

- a pluggable delivery manager.

Somashekar discloses a Bundle Configuration Utility (BCU) for configuring network deliverable pluggable components comprising:

- a pluggable delivery manager (pluggable component) (paragraphs 0010-0011 and 0015-0016).

Given the teaching of Somashekar, it would have been obvious to one of ordinary skill in the art to modify Shavit by including a pluggable component (delivery manager) within system in order to configure the pluggable component (delivery manager) before deployment thereby allowing the pluggable component (delivery manager) to perform the specified instructions.

As per claims 3, 18 and 35, Shavit wherein said defining of the delivery policy comprises:

- determining, from the user configuration, one or more delivery mechanisms supported by said intended recipient (paragraph 0033);
- determining which of said one or more delivery mechanisms supported by said intended recipient are included in the one or more available delivery mechanisms to yield one or more possible delivery mechanisms (paragraphs 0033-0034 and 0068); and
- determining which of the one or more possible delivery mechanisms are supported by the delivery manager, as indicated in the configuration of the delivery manager, a result of which defines the delivery policy (paragraphs 0033-0034 and 0068).

However, Shavit does not explicitly disclose:

- a pluggable delivery manager.

Somashekar discloses a Bundle Configuration Utility (BCU) for configuring network deliverable pluggable components comprising:

- a pluggable delivery manager (pluggable component) (paragraphs 0010-0011 and 0015-0016).

Given the teaching of Somashekar, it would have been obvious to one of ordinary skill in the art to modify Shavit by including a pluggable component (delivery manager) within system in order to configure the pluggable component (delivery manager) before deployment thereby allowing the pluggable component (delivery manager) to perform the specified instructions.

As per claims 4, 19 and 36, Shavit discloses:

- wherein said routing comprises dispatching the instant message to at least one delivery mechanism of the delivery policy, as indicated by the delivery policy (paragraphs 0035-0038).

As per claims 5, 20 and 37, Shavit discloses:

- wherein said routing comprises dispatching the instant message at least one delivery mechanism of the delivery policy, as indicated by the delivery policy (paragraphs 0033-0034 and 0068).

As per claims 6, 21 and 38, Shavit further discloses:

- selecting the delivery manager from a plurality of delivery managers (paragraphs 0033-0034 and 0068).

However, Shavit does not explicitly disclose:

- a pluggable delivery manager.

Art Unit: 2157

Somashekar discloses a Bundle Configuration Utility (BCU) for configuring network deliverable pluggable components comprising:

- a pluggable delivery manager (pluggable component) (paragraphs 0010-0011 and 0015-0016).

Given the teaching of Somashekar, it would have been obvious to one of ordinary skill in the art to modify Shavit by including a pluggable component (delivery manager) within system in order to configure the pluggable component (delivery manager) before deployment thereby allowing the pluggable component (delivery manager) to perform the specified instructions.

As per claims 7, 22 and 39, Shavit discloses the invention substantially as claims discussed above.

However, Shavit does not explicitly disclose:

- configuring said pluggable delivery manager.

Somashekar discloses a Bundle Configuration Utility (BCU) for configuring network deliverable pluggable components comprising:

- configuring said pluggable delivery manager (pluggable component) (paragraphs 0010-0011 and 0015-0016).

Given the teaching of Somashekar, it would have been obvious to one of ordinary skill in the art to modify Shavit by including a pluggable component (delivery manager) within system in order to configure the pluggable component (delivery manager) before deployment thereby allowing the pluggable component (delivery manager) to perform the specified instructions.

As per claim 8, 23 and 40, Shavit disclose wherein said configuring comprises:

Art Unit: 2157

- selecting a configuration for said delivery manager from a set of one or more configurations, wherein said selecting uses content of the instant message to make the selection (paragraphs 0033-0034 and 0068).

However, Shavit does not explicitly disclose:

- a pluggable delivery manager.

Somashekar discloses a Bundle Configuration Utility (BCU) for configuring network deliverable pluggable components comprising:

- a pluggable delivery manager (pluggable component) (paragraphs 0010-0011 and 0015-0016).

Given the teaching of Somashekar, it would have been obvious to one of ordinary skill in the art to modify Shavit by including a pluggable component (delivery manager) within system in order to configure the pluggable component (delivery manager) before deployment thereby allowing the pluggable component (delivery manager) to perform the specified instructions.

As per claims **9**, **24** and **41**, Shavit discloses the invention substantially as claims discussed.

However, Shavit does not explicitly disclose:

- wherein said configuring comprises configuring said pluggable delivery manager at runtime.

Somashekar discloses a Bundle Configuration Utility (BCU) for configuring network deliverable pluggable components comprising:

- wherein said configuring comprises configuring said pluggable delivery manager (pluggable component) at runtime (paragraphs 0010-0011 and 0015-0016).

Given the teaching of Somashekar, it would have been obvious to one of ordinary skill in the art to modify Shavit by including a pluggable component (delivery manager) within system in order to configure the pluggable component (delivery manager) before deployment thereby allowing the pluggable component (delivery manager) to perform the specified instructions.

As per claims 10, 25 and 42, Shavit discloses:

- wherein the intended recipient is indicated by the instant message (paragraphs 0024 and 0038).

As per claims 11, 26 and 43, Shavit discloses the invention substantially as claims discussed above:

However, Shavit does not explicitly disclose:

- wherein at least one available delivery mechanism of said one or more available delivery mechanisms is pluggable.

Somashekar discloses a Bundle Configuration Utility (BCU) for configuring network deliverable pluggable components comprising:

- wherein at least one available delivery mechanism of said one or more available delivery mechanisms is pluggable (pluggable component) (paragraphs 0010-0011 and 0015-0016).

Given the teaching of Somashekar, it would have been obvious to one of ordinary skill in the art to modify Shavit by including a pluggable component (delivery manager) within system in order to configure the pluggable component (delivery manager) before deployment thereby allowing the pluggable component (delivery manager) to perform the specified instructions.

As per claims **48, 49, 50 and 51**, Shavit discloses the invention substantially as claims discussed above:

However, Shavit does not explicitly disclose:

- wherein the pluggable delivery manager is dynamically added at runtime.

Somashekar discloses a Bundle Configuration Utility (BCU) for configuring network deliverable pluggable components comprising:

- wherein the pluggable delivery manager (pluggable component) is dynamically added at runtime (paragraphs 0010-0011 and 0015-0016).

Given the teaching of Somashekar, it would have been obvious to one of ordinary skill in the art to modify Shavit by including a pluggable component (delivery manager) within system in order to configure the pluggable component (delivery manager) before deployment thereby allowing the pluggable component (delivery manager) to perform the specified instructions.

Response to Arguments

3. Applicant's arguments with respect to claims **1-11, 16-26, 31, 33-43 and 48-51** have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LaShonda T Jacobs whose telephone number is 703-305-7494. The examiner can normally be reached on 8:30 A.M.-5:00 P.M..

Art Unit: 2157

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ario Etienne can be reached on 703-308-7562. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
